25X1X 4. [REDACTED] the effect that: a) the new organization is a long way from becoming active because of shortages of both trained personnel and supplies; b) the organization is becoming a refuge for SED men dismissed for one reason or another from the police. Then, dismissed from the Berlin police because of unauthorized Communist activity in the U. S. Sector, is a notable example of the type of men flocking to the Ministry of Interior.

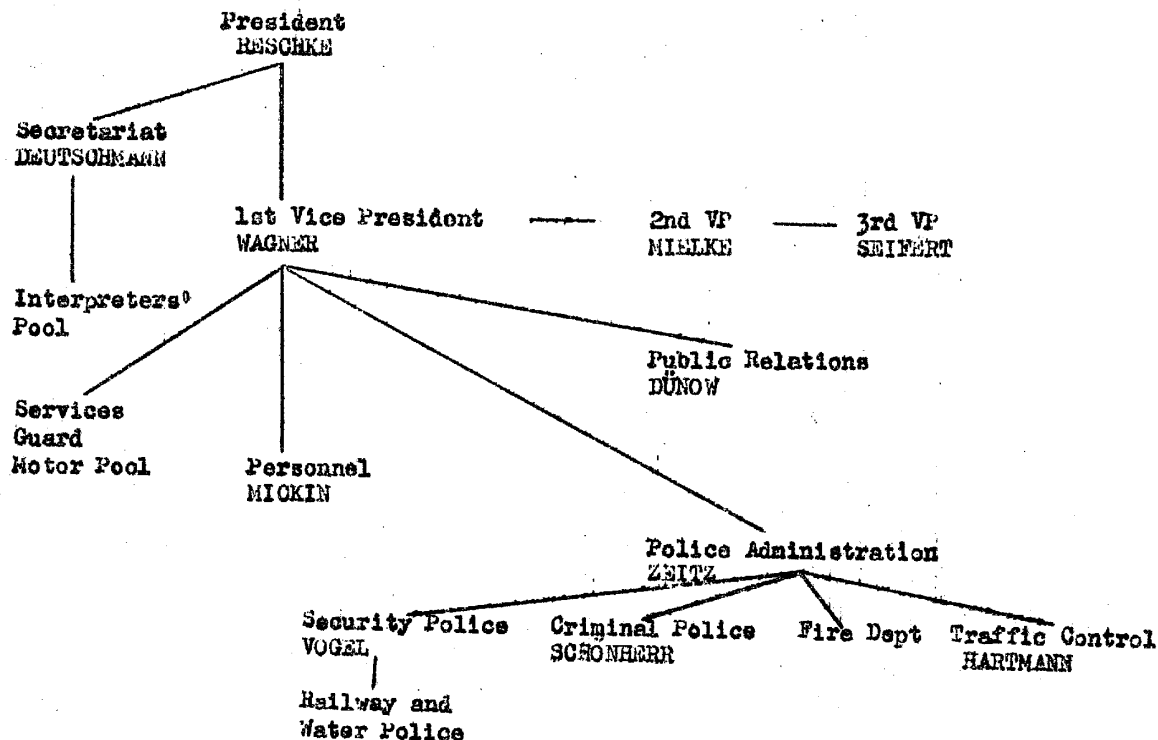

25X1X 5. [REDACTED] that so far there was no evidence of the MVD within the new police organization, nor any indication that the new agency will be anything more than what its name implies. [REDACTED] Comment: There has been some evidence that the MVD is vitally concerned if not active in the Police organization.) In this connection, [REDACTED] it was difficult to comprehend the reason for the secrecy surrounding that organization, a secrecy which already has been lampooned by at least one Berlin newspaper (Der Kurier, French-licensed, Wednesday, 30 October 1946, front-page).
